A list of winners has been released for the 2015 [Ontario Association of Architects \(OAA\)](http://www.oaa.on.ca) Awards, featuring local and international projects designed by architects and firms hailing from Ontario. Covering developments ranging from single-family homes to large-scale developments, the 20 winners of the 2015 *Design Excellence Award* were selected from over 175 submissions, judged by a jury of peers from the design community based on criteria like creativity, contexts, sustainability, good design/good business, and legacy. A total of 29 winners over 9 different categories will be recognized at an upcoming awards ceremony as part of the Ontario Association of Architects' annual conference, to take place in Hamilton on May 8th.

A full list of winning projects, honourable mentions and concepts is included below.
