WELCOME TO THE HOME OF YOUR CREATION

Your home greets you – at the front door. A harmoniously designed entrée shows personality: the exclusive colours of Les Couleurs® Le Corbusier, the unique heroyal Surface Design (SD) for wood and concrete looks and the colours of the RAL chart provide for an individual design of both the outside and the inside of your heroyal front door. This makes the greeting very special. Discover the new possibilities for a colourful design of your front door now.

MASTER OF COLOUR: LE CORBUSIER

One of the most important architects of the 20th century was a lot more than just that: not only did Le Corbusier design world-famous buildings, he was also an artist. He developed a well-thought-out colour scheme, revolutionising the design, using colours.

© FLC/ADAGP | Photo: Olivier Martin-Gambier 2006

His „Five Points of Architecture“, developed in the 1920s, not only shook up the world of architecture: Le Corbusier became one of the most influential architects of the 20th century. With fundamentally new aesthetics, he created masterpieces in architecture achieving worldwide fame.

Being a universal genius, he reached a lot farther than that: he intensively studied the design of rooms and details. Colours and their effects to him were as important as floor plans or form. For this reason, he extensively experimented with the effects of different shades of colours – developing his own colours scheme from there. His colour concept makes sure that every combination is harmonious - no matter whether subtle or striking shades are combined with each other.

Due to the printing process, colours may deviate slightly from the original Le Corbusier colours.
For original shades, please refer to the heroal Les Couleurs® Le Corbusier colour fan.

INDIVIDUALITY: CONFIGURE YOUR CHOICE OF DOOR

A door to your taste: dark frame, bright door panel – or just the other way round? Use the heroal front door configurator to design your heroal front door easily. Be inspired by the variety of colours and design the front door of your taste.

Your front door: unique

You can design your exclusive heroal front door to perfectly match you and your home: choose between different types of construction, types of sash, hinges, handle strip designs and technological extras such as using a fingerprint for opening. You can design the individual components using the various colours of Les Couleurs® Le Corbusier. The 63 colour shades are naturally harmonious and can be combined with each other in any way. Each colour represents specific spatial and human impacts. In addition, you may design the components using heroal SD, the surface design for wood and concrete looks, and the colours of the RAL chart. Discover fascinating colour designs now at konfigurator.heroal.de!

HARMONY: INTERIOR AND EXTERIOR

Aesthetic variety with a common denominator: now you can choose different colours for frame, door panel, handle strip and hinges of your front door. The result is always harmonious – because all colours originate from the colour scheme by Le Corbusier.

Front door inside

High-quality door panel with modern design

opening with optional fingerprint

handle strip in three different lengths, optionally with LED

elements with optional sidelights and toplights

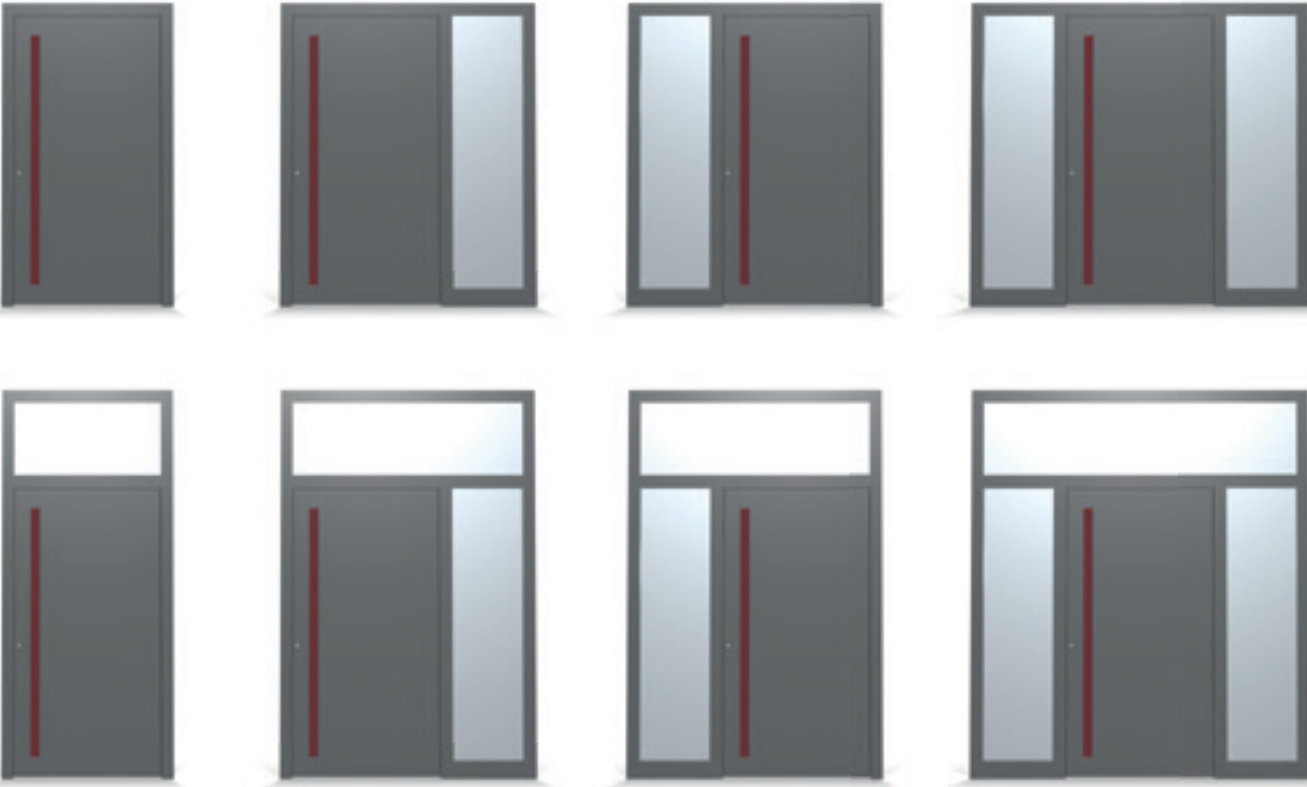

standard burglary resistance RC 2

barrier-free threshold

Front door outside

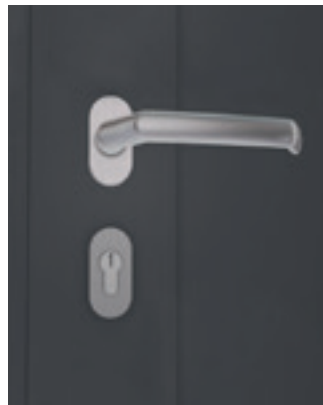

YOUR FRONT DOOR: MORE THAN A DOOR

To enable you to design your front door as the entrance of your taste, you can choose from a range of construction types: glazed sidelights or a top-light brings more light into the entrance area. Wide entrances as well as excessively high openings can also be conveniently designed.

YOUR OPTIONS: ALWAYS HIGH QUALITY

In order to turn a door into your personal front door, you have a huge freedom of design. But the design is not only about colour, but also about safety, heat insulation and comfort - for example by integrating a fingerprint reader for a keyless opening of your door.

Door levers

The fitting range heroyal DF provides for three different designs to choose from. That means you will always find the right lever for your individual requirements.

heroyal front door are made from high-quality aluminium and therefore represent a long-lasting and sustainable product which is especially resistant to weather and corrosion. That way, you can enjoy reliable and easy serviceability over a long lifespan.

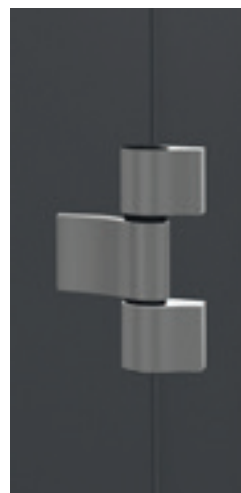

The heroyal front doors are available in two sash variants: as a flush version, installed without any offset towards the house wall, or as a recessed version, silhouetted against the wall.

As an option, you can add a fingerprint system or an LED lighting in the handle strip to your heroyal front door.

Fingerprint

Highest comfort, maximum safety: as an option, heroyal door fittings can be equipped with a keyless entry system. This allows access using a fingerprint reader; or opening the door via an app is possible, increasing the ease of use.

Door hinges

heroyal surface hinges (right) and barrel hinges (left) may be coated in colours of the Les Couleurs® Le Corbusier range, colours of the RAL chart and in heroyal SD: you can choose the same shade for sash, panel and hinges in order to achieve a fine-tuned colour identity or opt for setting accentuations of colour.

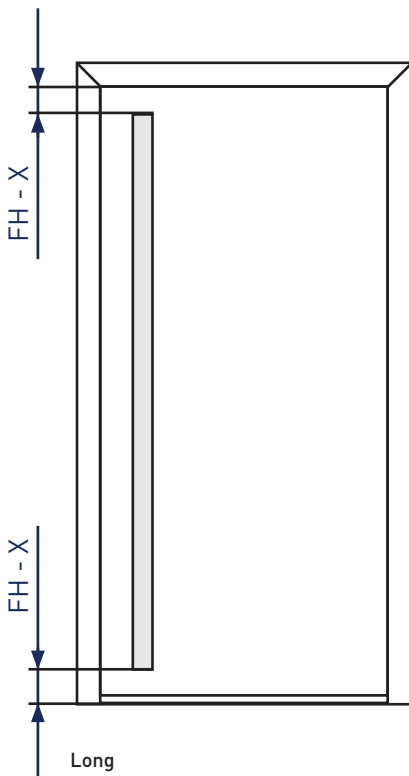

EVERYTHING UNDER CONTROL: COMFORT AND DESIGN

Persuasive when it comes to the opening mode: the elegantly integrated handle strip replaces the classic handle bar outside. The flush, ergonomic design not only creates a high-quality and modern look, but also ensures a comfortable grip. The colour of the handle strip can also be individually designed, using the Les Couleurs® Le Corbusier range of colours, heroyal SD surface design and the RAL chart of colours.

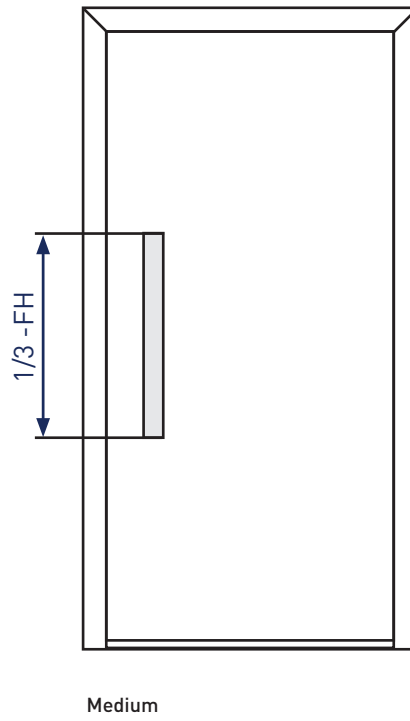

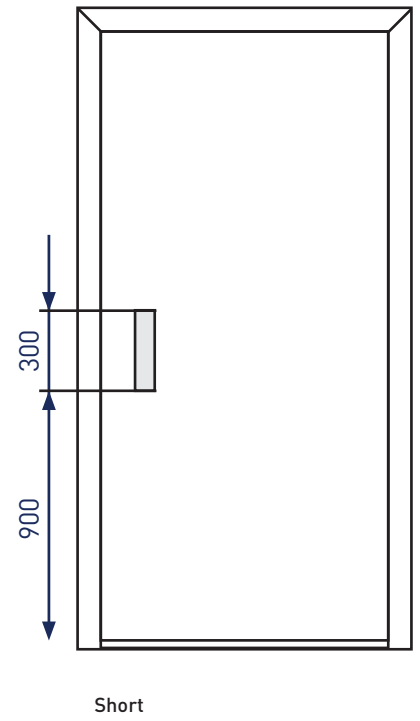

The handle strip is available in three different lengths (from left to right): long, medium and short.

Long
The distance towards the top and bottom element rim is: sash height - X

Medium
1/3 of sash height

Short
300 mm high, 900 mm distance from bottom

LED strip lighting
Additional accentuations of colour can be set by the optional LED strip lightings using cold or warm light, which can be integrated into the handle strip. They are also persuasive because of their durability and low energy consumption.

LE CORBUSIER: EXCLUSIVELY FOR YOU

The unique Le Corbusier colours are available for the design of inspiring architecture. On the basis of the exclusive partnership with Les Couleurs® Le Corbusier, heroyal makes the 63 colour shades of the Architectural Polychromy available for you.

Door: 32010 gris foncé 31 (heroyal 765)
Handle strip: 32011 gris 31 (heroyal 766)

Door: 4320H gris 59 (heroyal 772)
Handle strip: 4320U gris foncé 59 (heroyal 775)

Door: 4320E noir d'ivoire (heroyal 769)
Handle strip: 32013 gris clair 31 (heroyal 768)

Door: 32010 gris foncé 31 (heroyal 765)
Handle strip: 4320E noir d'ivoire (heroyal 769)

Door: 32011 gris 31 (heroyal 766)
Handle strip: 32013 gris clair 31 (heroyal 768)

Grey & Black: Grey symbolizes at the same time quiet and indifference. By using light shades of grey, a velvety atmosphere can be created, while darker shades can move objects and surfaces into the background or shade.

Door: 32130 terre d'ombre brûlée 31 (heroal 817)
 Handle strip: 32141 ombre naturelle moyenne (heroal 819)

Door: 32141 ombre naturelle moyenne (heroal 819)
 Handle strip: 4320J terre d'ombre brûlée 59 (heroal 823)

Door: 32142 ombre naturelle claire (heroal 820)
 Handle strip: 32141 ombre naturelle moyenne (heroal 819)

Door: 4320J terre d'ombre brûlée 59 (heroal 823)
 Handle strip: 32141 ombre naturelle moyenne (heroal 819)

Umbr: Umbr is a colour for shadow areas. Umbr-coloured objects and surfaces escape the observer's attention, redirecting it to other areas.

Door: 32024 outremer gris (heroal 777)
Handle strip: 32023 outremer pâle (heroal 776)

Door: 32033 céruléen clair (heroal 781)
Handle strip: 32032 céruléen moyen (heroal 780)

Blue: A room can be broken up by shades of blue. The atmosphere is soothing and conveys the feeling of a water landscape.

Door: 32010 gris foncé 31 (heroal 765)
Handle strip: 4320B blanc ivoire
(heroal 603)

Door: 32010 gris foncé 31 (heroal 765)
Handle strip: 32031 céruleen vif
(heroal 778)

Door: 32010 gris foncé 31 (heroal 765)
Handle strip: 4320M le rubis
(heroal 631)

Door: 32010 gris foncé 31 (heroal 765)
Handle strip: 4320F vert olive vif
(heroal 790)

Door: 32012 gris moyen (heroal 767)
Handle strip: 4320B blanc ivoire
(heroal 603)

Door: 32012 gris moyen (heroal 767)
Handle strip: 32023 outremer pâle
(heroal 776)

Accentuations: Combine subtle design with extravagant accentuations of colour. Thanks to the wide variety of Le Corbusier colours, coloured design details turn your front door into an eye-catching feature.
